Do you ever have  
Those thoughts,  
While browsing  
Among the ferns  
“If one utahraptor  
Eats another  
utahraptor, how many  
Were there  
to begin with?

**And if**

**The answer is two,  
does this generalize,  
to the case in which  
a deinonychus  
eats another  
deinonychus?**

**Ever have those thoughts?**

**I sure do.**

**It drives me crazy.**

**Good thing**

**eating makes sense.**
